Draft Inland Code

- The Draft Inland Complying Development Code (Inland Code) will form part of the overall Code SEPP, as a separate chapter.
- The Inland Code is proposed to apply to all local government areas west of the Great Dividing Range.

Draft Inland Code Cont...

- Inland Code includes explanatory diagrams

- The dimensions are measured at the lot boundary 2.5m then from that point 45° with minimum setback of 0.9m
- Overall building height = 5.5m max
- Building height plane means a plane projected at an angle of 45° over a site from a point measured 2.5m above the side boundary
- The building must be contained within the plane and comply with relevant setbacks as prescribed in this code.
